Dr. Ron W. Zufall Dental & Health Care Scholarship

Thank you for your interest in my Dental and Health Care Scholarship, which is being offered to graduating seniors interested in pursuing a career in the health care professions. Since my graduation from AUHS in 1982, the health care field has been very kind to me. Because of this, I wish to pass along some of my success to other AUHS and SHS students.

A career such as dentistry offers a world of opportunities for professional interaction, personal growth, continuing education, and one-on-one service to people in the community. These opportunities combine to provide a unique and rewarding work experience. My hope is that by winning this award, you too will be able to pursue a career in the health-care profession.

Please have your application **to my office by May 10, 2007**. We will inform all applicants of the final decision during the third week of May. The \$500.00 scholarships will be awarded to the winners, from each school, at your awards ceremony.

There are four criteria for this scholarship:

1. A one-page description of yourself and why you are interested in pursuing a health-care career (dentistry or any other career choice). Please include your possible plans for college and why you feel you are a deserving candidate for this award.
2. A description of extracurricular activities in which you participate, academic, athletic, and social (both school and non-school related).
3. A copy of your most recent GPA transcript.
4. Two letters of recommendation from people we can contact for further information:
One education related reference
One extracurricular related reference

If no applicants meet the deadline or criteria, a \$500.00 donation will be made to your school's science department to help build interest in the field of science.

Thank you for your interest and good luck!

Ron W. Zufall, DDS
